

## PUBLIC MEETING MINUTES

**Wednesday, June 22nd, 2022, 10:30 am**

**This meeting will be held via zoom only**

**Join Zoom Meeting:**

<https://us06web.zoom.us/j/85283250955?pwd=V2ZnYldRdWlVVUhEeHpFaGtjRUx0dz09>

(see next page for call in **details**)

### **I. Regular Board Meeting Public Forum**

#### **A. Call to Order**

Altman called meeting to order at 10:32am

Quorum? Yes

Altman, Olsen and Schumacher in attendance.

Meeting is fully remote.

#### **B. Revise and Approve May 11<sup>th</sup> and 18<sup>th</sup> Meeting Minutes – Action**

Draft minutes were previously reviewed by board members.

*Olsen moved to approve the May 11<sup>th</sup> meeting minutes as presented, Schumacher seconded. No Discussion. The motion passed.*

*Altman moved to approve the May 18<sup>th</sup> meeting minutes as presented, Schumacher seconded. No Discussion. The motion passed.*

WGM Group will post final drafts to website and provide them to the County Clerk.

#### **C. Public comment on relevant non-agenda items – Discuss**

None

### **II. New Business**

#### **A. Board updates and correspondence – Discuss**

None.

#### **B. Annexation and Outreach Committee updates – Discuss**

Mace Mangold of WGM group presented at the Ramshorn HOA meeting a few weeks ago, coordinated by Peter Bedel. Proposed project and general costs were presented. There is definite interest in annexation, but more concrete costs are needed before a final decision is made. Costs are expected to be refined in the coming few months.

A committee meeting has still not happened. Scott Altman will help coordinate a meeting that works for most committee members.

**C. BSCWSD-BSRAD-GCCWSD “joint project subcommittee” Updates – *Discuss***

There has been no meeting since the May meetings – no update.

Mace Mangold (WGM Group) said that conversations with Ron Edwards and AE2S indicate that keeping the Highway 64 mains and the Canyon collection/disposal as two separate requests for proposals (RFPs) and projects will likely be preferred.

**D. WGM Group Updates – *Discuss***

It took roughly \$200,000 for GCCWSD to operate and progress the project in 2022, exceeding the BSRAD allocation. Initial conversations with Daniel of BSRAD to potentially increase start-up funding for the GCCWSD have started and are encouraging.

WGM Group and Altman have had this conversation. Both feel that BSRAD has been very receptive and is happy with the progress that has been made. The original allocation was made very early in the planning process before actual costs were known.

Securing funding was the main focus of 2022 project efforts.

Gallatin County requested all county ARPA applicants come to present about their projects Tuesday last week. Little time was given for each project. WGM Group presented on both the GCCWSD water PER and Sewer requests and came away with the impression that the canyon has some of the better projects and should be funded. They are optimistic for some funding, but unsure if it will be the full ask.

The commission was initially hesitant to fund another sewer request since they already gave \$750k in previous rounds. Because the current sewer ask requested funds for helping incentivizing connection of Ramshorn (much of the existing loads), the commissioners seemed more interested.

Commission should have awards determined in about a month.

Grant application content from the April/May push was reshared with the board, with some orientation provided to help ease review.

It will be roughly a year before GCCWSD hears back on MCEP (\$750k) and RRGL(\$125k) awards.

**E. Fiscal Year ends June 30<sup>th</sup> – financial planning/reporting – *Discuss, maybe action***

In next two months GCCWSD should review the FY22 budget in comparison to expenses and prepare a new budget. Jessica Trulan, District accountant has some end of year reporting to do for Local Government Services.

Altman and/or WGM Group should coordinate with Daniel at BSRAD to see if additional funds can be secured for GCCWSD start up tasks in time to add to the FY 23 budget. The previously allocated BSRAD funds deposited to the GCCWSD account July 1<sup>st</sup>.

Altman and WGM Group will coordinate these tasks with BSRAD and the accountant.

State ARPA funds will be available to draw upon within the next quarter – this should be considered in the District budget.

**F. Impact Fee and Rate Study – *Discuss, maybe action***

A draft scope for AE2S and WGM Group to conduct an Investment Charge and Rate Study was presented and discussed. The fee is estimated at just under \$25,000.

Ryan Graf from AE2S has done most of the financial predictions to date during the feasibility study and Preliminary Engineering Study. He led the following discussion.

The District should probably use the term “investment charge”. “Impact fees” has a few more legal limitations than “investment charge” but is largely equivalent. BSCWSD uses Plant investment charges.

Rates and fees are dependent on which properties will actually be in the District and how the project will be phased. Property owner willingness to join the District also depends on costs. This study should help owner understand the implications of joining the District and connecting.

Determining costs of service of treatment of GCCWSD at BSCWSD and disposal of BSCWSD effluent at GCCWSD will also be a major factor. Negotiations should start during this scope. Preliminary conversations and planning have been about disposing of twice as much flow as what is treated.

AE2S does impact fee and rate setting/advisory for BSCWSD. Does the GCCWSD have any hesitation using the same? This will be discussed later.

During this task consultants would help the GCCWSD board really think through fixed rates versus volumetric use based rates and how this would impact financial feasibility in the short and long term for a growing district.

Additional services may include unexpected needs such as providing financial estimates for grant applications, etc.

When asked if they had any comments to bring this draft scope to a final version that the board would be interested in pursuing and approving at the next meeting, the board said no.

Having firmer cost estimates should be a priority to help encourage annexation and district growth and inform phasing and design.

This scope will likely span several months. There will be lots of conversation between consultants and the board to help shape the rate and fee allocations in the best way for the District.

Olsen mentioned the importance of standing up for the value of disposal of BSCWSD effluent, and making sure that value is captured when negotiating treatment costs.

Disposal capacity provided could also be a factor of prioritizing annexation of new properties into the District. Value of disposal potential could reduce investment fee for individual properties.

Nutrient removal value should also be considered to keep incentivizing existing systems to connect to the sewer.

Review and approval of the scope will be added to the next agenda.

Ryan Graf left the meeting.

**G. Municipal Facility Exemption – Discuss**

This subject should read “exclusion” not “exemption.” The state COSA reviewers are very short staffed. Municipal Facility Exemption (MFE) allows government entities to contract out / perform their own approvals for COSAs within their own boundaries. DEQ still does a final review, but the process is expedited. BSCWSD is considering doing this. The GCCWSD should consider this too. Easing the permitting process may help encourage annexation in the District and further the District’s goals of removing existing loads quickly and preventing proliferation of new onsite systems.

To qualify, GCCWSD will need a more robust long-term plan. WGM Group and Altman will do more research on this topic to present at the next meeting.

**H. Insurance renewal – Action**

District insurance needs to be renewed. Board members were provided the cost comparisons from last year’s partial coverage and the quoted costs for fiscal year 23. (see attached forms).

The quoted invoice is for \$1,803.

Altman moved to renew the District’s insurance through MACO, as quoted. Olsen seconded. No discussion. The motion passed unanimously.

Altman will pay the invoice.

**I. Recording board meetings – Discuss, maybe action**

This was successfully done at the May 11<sup>th</sup> meeting using the record option through Zoom.

The board can choose to continue to record meeting or not. If recordings are to be used as the official meeting record, timestamps are needed, according to MCA. This is likely more time intensive than continuing to use written minutes. The board decided to start recording their meetings and posting it to their website but will continue to use the written meeting minutes as the official meeting record.

**III. Old Business**

**A. GCCWSD joining Chamber of Commerce – Discuss, maybe action**

There is a \$350 fee to join. This is below the threshold to require a vote to pay. The board is in agreement that they should join the Chamber of Commerce. This will help

further education and outreach efforts of the District and increase their presence in the community and coordination opportunities with various relevant entities. Altman will pay the fee and file forms to join the Chamber of Commerce.

Altman asked whether or not Jessica, the accountant can cosign District checks. The GCCWSD bylaws allow the clerk and Board President or any two board members to sign District checks. It is unclear whether accountant = clerk.

An agenda item should be added for the next meeting to clarify rules to allow the accountant to cosign checks.

**B. ARPA start up conditions updates– *Discuss, maybe action***

The District's UEI still needs to be registered. WGM and Altman are coordinating this. The State ARPA contract should be ready to sign within the next quarter.

**C. Board Member COI Disclosures – *Discuss***

Renaë still needs to submit the Business Disclosure Form. Discussion was pushed to next board meeting.

**D. District Legal Counsel Procurement– *Discuss, maybe action***

Jecyn Bremer, previously with the County has agreed to be general council.

Matt Williams agreed to remain as more technical counsel.

Altman will work on getting a letter of engagement for each. These will be provided for a vote at the next board meeting.

**IV. Any Other Business Which May Properly Come Before the Board – *Discuss***

There was an article in the Chronical about algae blooms in the Gallatin River. DEQ made a decision to list The Gallatin as "impaired" in the relevant stretch on June 14<sup>th</sup>.

WGM Group will look into this to better understand implications and if it is impaired for algae or nutrients. There is currently a public comment period open – the District will likely want to comment. There will be a public hearing about this on July 14<sup>th</sup>.

**V. Next Meeting Planning**

**A. Date & Draft Agenda – *Discuss***

July 13<sup>th</sup> works for all board members and allows time for the board to determine if they want to make an official comment on the Impairment status.

**VI. Adjourn**

*Olsen motioned to adjourn the meeting at 11.31. Schumacher seconded. No discussion. Motion passed unanimously.*

***Public comment will be encouraged before all non-emergency non-ministerial Actions.***

Minutes Drafted by: Michelle Pond, WGM Group

Minutes Approved: 7/13/2022

FY 2024+	90% Drawings (Permit Set)	Sewer collection and disposal design drawings (assumes lift station and Hwy 64. conveyance infrastructure by BSCWSD)	\$400,000
	Final Impact Fee & Rate Study	Establishment of "fair and equitable" impact fees and user rates based on 30% design collection / disposal design and BSCWSD treatment-disposal agreement	\$25,000
	SRF Funding Package	Coordinate....secured funds, SRF funds, bonding, debt repayment, etc...	\$30,000
	DEQ Coordination	Design review and approval(s) coordination	\$30,000
	Construction Drawings and Bid Package	Finalize 90% drawings and address DEQ comments, prepare bid documents	\$100,000
	Construction Administration	Bidding support and contractor award, contract coordination, construction administration and oversight, inspections and certifications	\$500,000

**PRELIMINARY PROJECT MILESTONES AND BUDGET (ESTIMATE ONLY)**

	TASK/SCOPE	DESCRIPTION	BUDGET
FY 2022	Preliminary Engineering Report (PER)	BSCWSD Contracted Effort to support Competitive ARPA Application	\$40,000
	Infrastructure Inventory & Phasing Plan	Task Force allocation to support collection prioritization to achieve "net-nutrient reduction"	\$60,000
	Canyon District Administration	District set-up and filings (by-laws, insurance, bank accounts, County papers, etc.), Board meetings, funding coordination and applications, supporting engineering/accounting/legal counsel.	\$20,000
	Canyon District Outreach	Website development, project overview illustrations, press-release flyer, outreach event attendance and presentation, outreach committee meetings and/or events	\$20,000
	Canyon District Engineering	Grant Administration, Expanded Groundwater Discharge Feasibility Study, Water System PER, Preliminary Impact Fee & Rate Study	\$40,000
	Secured Non-BSRAD Funds	\$2M DNRC competitive ARPA Grant, \$750,000 County Minimum Allocation Grant, \$3000 CTAP Planning Grant	NA
	Pending-Planned Funding Requests	\$27,500 County Planning Grant, \$250,000 County Minimum Allocation Grant, \$750,000 MCEP Grant, \$250,000 RRGL Grant	\$20,000
FY 2023	Canyon District Administration	Board meetings, funding coordination and applications, supporting engineering/accounting/legal counsel.	\$40,000
	"Phase 1" Boundary Establishment	Incorporate FY2022 findings and recommendations into an implementation plan (landowner coordination, annexation process and paperwork, engineering OPCs, Impact Fee/Rates, etc.)	\$35,000
	Preliminary Impact Fee & Rate Study	Evaluate "bookend" user rates and connection fees for projected District service area limits.	\$25,000
	ARPA Grant Administration	Update Budget/Implementation Schedule, Document Federal/State Audit Compliance, ARPA administration training/meetings attendance, etc.	\$30,000
	Groundwater data collection	Water quality sampling, water level measurements, pump tests	\$45,000
	Subsurface Characterization	Drilling, piezometers/wells install, bore hole logs, data compilation and evaluation	\$50,000
	Hydrogeologic Analysis	Anticipated MODFLOW model to refine MBMG's model specific to planned disposal locations and newly and FY2023 data collection	\$50,000
	BSCWSD-GCCWSD-BSRAD Interlocal Agreement	Legal and engineering counsel to develop cost share and/or service agreements with respect to BSCWSD treatment and GCCWSD disposal	\$30,000
	Supplemental Field Data	Survey, geotech, wetland delineations, etc.	\$50,000
	30% Engineering Drawings	Sewer collection and groundwater discharge design, updated Engineer's Opinion of Probably Cost (OPC)	\$100,000

**Commented [MM1]:** In Progress scope (Task Force facilitated)

**Commented [MM2]:** AE2S provided Draft scope for a Preliminary Impact Fee & Rate Study. The study will need to be refine once the District boundary is refined.

**Commented [MM3]:** WGM to scope based on Expanded GW Discharge Study (present at July Board Meeting)

**Commented [MM4]:** Mace requesting proposal from Western Groundwater Services (Mark Cunnane)

## MONTANA ASSOCIATION OF COUNTIES PROPERTY & CASUALTY TRUST

# CERTIFICATE OF COVERAGE

This certifies that Gallatin Canyon County Water & Sewer District is a member of the Montana Association of Counties Property & Trust and Casualty as such is provided with the following coverages:

- General Liability
- Auto Liability
- Fidelity & Crime
- Errors & Omissions
- Employee Benefits
- Law Enforcement
- Sexual Abuse
- Property Coverage
- Boiler & Machinery

These coverages are provided for the period **07/01/2022 - 07/01/2023**. Coverage limits are attached to this certificate. Coverage exists for all entities acting within the scope of their duties. Questions about coverage should be addressed to MACo PCT, 2717 Skyway Drive, Helena, MT 59602-1213 to the attention of Shannon Chamberlain.

Signed: *Shannon Chamberlain*
